Exclusions, Personal Gear and Art Work

Owners Notes:

“Captiva” represents one of the finest yachts built by Alliaura Marine. This Privilege 745 #2 offers worldwide sailing opportunities as well as the potential of luxury crewed charter. The volume offers spacious accommodation from any point aboard, from the flybridge to the cockpit, saloon, to the owners and guest quarters. Being this is the fourth build by Alliaura for the owners, they understood how to work with the factory in options and equipment where no expense was spared in putting together one of Alliaura’s Best. She has been maintained in like new fashion ever since.

This is a Special Yacht with nearly one year and a half working to get this Privilege just right. Photo’s really can not do her the justice she deserves. What made this yacht special to her owners? When asked the question here are the results:

The night lighting is dramatic, with under deck lighting both bow and stern, submarine lighting underwater along with the outside deck and interior lighting it’s magic while moored out on a quite night. Special attention has been given to detail as in the decorative lower cockpit ceiling decoration provided custom by Alliaura, the bar area to port in the main saloon is truly reported as “Now this is a real bar on this yacht!”, the gas Barbeque? the sound system? Superb! My Guests have quarters with comfort with proper desks and seating. Entertaining? On the bridge two tables and enough space to sit up to twelve guests. By the way, the arch mounted domes were added to balance out the appearance, they are there for further equipment, but are in-active.

The owners main cabin with attention to detail, the work and desk area with it’s own specific hatch offers great day lighting, the optional additional storage closets, the bath tub, all make for a regal space to retire to after a days adventure.

Finally, the operations and mechanics, ease of sail handling, maneuverability with added dual bow thrusters. 144,000 BTU worth of air works great keeps the interior at a comfortable temperature. The owner could go on, but had to note just a few of their highlights relative to this special yacht “Captiva”.

Electrical, Power & Plumbing

PORT STAIRS

Large storage

The Catamaran Company, 4005 N. Federal Highway Suite 200 Fort Lauderdale, Florida 33308, United States
